

# CUSTOM RACK POWER SYSTEMS

AIRBOURNE

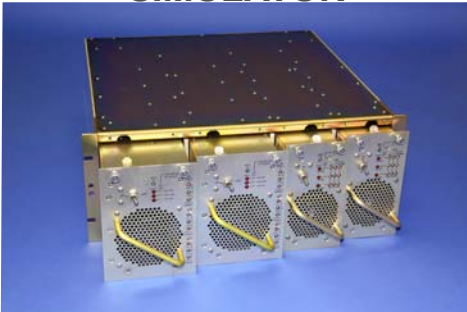

SIGNAL PROCESSOR

MOBILE RADAR

SIMULATOR

SHIPBOURNE

## FEATURES:

- Proudly Made in U.S.A.
- Increased Energy Storage.
- Range of Output Volts from 1.5V - 450V.
- Custom Input/Output Configurations Available.
- Conformal Coating (Acrylic/Urethane/Parylene)
- Configurable from 19" - 24", with Mounting Rails.
- Micro USB/SNMP/HTTP Communication Interface.
- Design Flexibility - Designed to Your Specifications.
- Hot Swappable Using Plug-in Power Modules (LRU's).
- Redundancy Provided With Internal Oring FET's/Diodes.
- Engineered for Reliability with High MTBF and Low MTTR.
- Use of COTS Components Reduces Cost and Saves Time.
- Rugged Designs Meeting MIL-STD's (i.e. 1399, 704, 461, 810, 901, etc...).
- Wide Range Single & 3Phase Inputs or DC Inputs From 24VDC - 375VDC.
